TrunkTracker FEATURING THE HANDHELD BCD 396T/BC 246T SCANNERS

Introducing the latest line of scanners from the company that started it all. The BCD 396T comes equipped with features like Advanced Dynamic Memory System and Close Call™ RF Capture Technology that provide improved inter-operability, plus the latest in APCO 25 Digital Trunking. The BC 246T Compact Scanner was designed to be carried anywhere. Uniden's scanners offer more than ever before. It's just what you'd expect from **Uniden Bearcat**, the industry leader in scanner technology.
