

MHS350

Introducing your electronic life jacket.

Shown actual size

MHS350 - HANDHELD MARINE TWO-WAY VHF RADIO

Compact, submersible and housed in a rugged, die-cast aluminum case, Uniden's MHS 350 is a must for any user who demands more from their radio. It also features a huge, incredibly easy to read display. Plus, it comes with two rechargeable Nickel Metal Hydride batteries, each delivering from 12-14 hours of worry free operation to easily carry you through a long weekend. And since portables inevitably get wet, the MHS 350 is designed to be fully submersible.

- All USA, International and Canadian marine channels
- NOAA Weather Alert with S.A.M.E. for localized weather, not forecasts from hundreds of miles away
- Full 5 watts setting for maximum range when you need it and 1 watt lower power, maximizing battery life, when you don't
- JIS7 submersible rated and designed to get wet so you can splash it, spray it or dunk it
- Two 1100 mAh batteries are included for up to 24 hours of worry-free operation
- Triple Watch/Programmable Scan means you never miss a call
- Largest backlit LCD in its class for easy reading, day or night
- Unique Elastomer-wrapped design for a quality feel that won't slip out of a wet or gloved hand
