PUBLIC SAFETY SPECIAL ACCESSORIES

The following kits allow the interchangeability of one set of accessories with either the XTS3000 / XTS5000 radios or the Saber/Astro radios. The components shown in the V6-10001 system allow keyloading through the mic or the body PTT. This enables the user to utilize the 12 pin connector that is most conveniently located for this purpose. Unlike 6 pin keyload adapters currently in the market, the OTTO 12 pin adapter will support **both** portable and mobile keyloading **AND** a full range of accessory options without the need to remove the adapter.

With the exception of the keyload cables, these accessories may be used on EF Johnson 5100 series and Motorola models that use the XTS3000 style

PART NO.	COMMENTS	DESCRIPTION	SUGGESTED RESALE
Used on XTS3000 / XTS5000 Series Radios			
V1-10537		Adapter - XTS3000 / HT1000 Series w/12 pin Hirose jack	\$ 105.00
