

# Big technology in a really small package.

## VOYAGER - HANDHELD MARINE TWO-WAY VHF RADIO

The Uniden Voyager may be the world's smallest marine radio, but it's jam packed with all high-tech features of a deck mount. Voyager picks up all NOAA weather channels, features S.A.M.E. weather alert, and picks up all US, International and Canadian marine channels. It even comes ready for an optional speaker microphone and meets J157 submersible standards. Who says size equals power?
